

SIZING GUIDE

MEASUREMENT GUIDELINES

We recommend taking all measurement from existing garments that you know fit well and comparing those measurements to the tables below to find your Tribal size.

1/2 Chest: We recommend taking an existing top that you know fits well and taking a straight line measurement across the chest, approximately 1cm below the armpit. Then use the charts below to obtain which size you are in Tribal.

Length: We recommend taking the measurements from a garment you already own, otherwise measure in a straight line from the top of the shoulder point to the bottom of the garment. Shorts length is obtained by measuring from the top of the waistband down the side of the short to the hem [outseam].

1/2 Waist: We recommend measuring a pair of shorts you already own and comaring those measurements to the ones in the below chart. Measure in a straight line from one side of the shorts to the other.
