## SIZING GUIDE

## MEASUREMENT GUIDELINES

We recommend taking all measurement from existing garments that you know fit well and comparing those measurements to the tables below to find your Tribal size.

1/2 Waist: We recommend taking an existing short or pant that you know fits well and taking a straight line measurement across the top of the waistband from one side to the other.
Then use the charts below to obtain which size you are in Tribal.
Length: We recommend taking the measurements from a garment you already own, otherwise measure in a straight line from the top of the waistband down the side of the short to the hem [outseam].
